

SHULMAN ROGERS SELECTED BY MIAMI/DADE COUNTY, FLORIDA FOR TELECOMMUNICATIONS ASSISTANCE

October 5, 2009

The Potomac, Maryland law firm of Shulman Rogers Gandal Pordy & Ecker, P.A. has been selected by Miami/Dade County, Florida to provide assistance to the County with regard to the rebanding of the County's 800 MHz radio system.

The FCC-mandated program requires that hundreds of public safety radio systems be retuned to different frequencies. Further, tens of thousands of radios are being replaced as part of the project.

Shulman Rogers has been assisting clients in their negotiations, drafting of Statements of Work, and development of Cost Estimates.

Shulman Rogers Telecommunications Department head Alan Tilles said "We are pleased that Miami/Dade has shown the same confidence in our Firm as over 200 other public safety agencies. It is an honor to assist our nation's first responders in ensuring that their communications get through, the first time.
