

OUR FIRM

RESOLUTIONARY THINKING

Focusing on solutions. Thinking creatively and tenaciously about outcomes. About what's in your best interests. Getting matters resolved, so you can get on with what matters to you. That's revolutionary thinking. And that's made Shulman, Rogers, Gandal, Pordy & Ecker, P.A., one of the largest, most respected law firms in the Washington Metropolitan Area.

In 1972, Shulman Rogers was founded on a commitment to client service. Today, the firm's roster of highly skilled attorneys and other dedicated staff members are all guided by that same commitment. A client-first approach. A smart, efficient practice. A relentless focus on problem solving. And an underlying compassion—for our clients and our community. It all adds up to revolutionary thinking. The kind of thinking you can count on from the people of Shulman Rogers.
